

NICHOLAS EDMUND TANAKA

Fullstack Developer • Computer Engineering @ Universitas Indonesia

Jakarta, Indonesia • +62 821 1224 8933

nicholasedmund18@gmail.com • niconet.site • github.com/niconett18

SUMMARY

Fullstack developer focused on shipping sharp, high-performance web applications. Comfortable across the stack — from backend architecture to polished frontend execution. Minimalist by design, maximalist in performance. Currently shipping freelance web work while exploring AI-assisted developer tooling.

EDUCATION

B.Eng. in Computer Engineering • GPA 3.56 / 4.00

Aug 2024 — Jun 2028

Universitas Indonesia, Depok • Languages: Bahasa Indonesia (Native), English (Professional)

- Actively engaged in academic projects, extracurricular activities, and research in computer engineering.

PROJECTS

Prime Capital Ledger primecapitaledger.site

Next.js • TypeScript • TailwindCSS • PostgreSQL

Solo-built financial platform with a trust-driven UI for capital management — designed for institutional clarity with refined typography, performant data views, and a polished interaction layer.

sumopower.id sumopower.id

Next.js • React • TailwindCSS • Vercel

Commercial e-commerce platform built for speed and clean UX. Owned full lifecycle: client requirements, end-to-end development, and production deployment with custom domain.

cloudream.id cloudream.id

Next.js • TypeScript • Framer Motion • Vercel

B2B digital platform offering enterprise cloud solutions. Owned UI/UX, frontend architecture, and deployment — shipped from scratch as a solo build.

Idzhar Dwi Karya • G2M Church • Fore Nico • To-Do by Nico niconet.site

Next.js • React • TailwindCSS • Vercel

Portfolio of shipped client and personal projects spanning corporate landing pages, community platforms, and productivity tools. All solo builds emphasizing clean architecture, performance, and minimalist UX.

EXPERIENCE

Freelance Web Developer

2024 — Present

Independent • Jakarta, Indonesia

- Designed and developed sumopower.id and cloudream.id from scratch — covering UI/UX, frontend, backend, and deployment.
- Managed full project lifecycle: client requirements gathering, implementation, and domain/hosting setup.
- Delivered all projects as solo builds — owning architecture, code quality, and production-readiness end-to-end.

Vice Head of Creative Marketing

Feb 2025 — Present

EXERCISE FTUI — Universitas Indonesia

- Promoted from Creative Marketing Staff based on strong performance; now mentor junior staff and oversee event promotions.
- Lead the creative team in digital marketing strategy, content planning, copywriting, and branding campaigns.
